

## FIRE NUMBERS

On May 1, 2004, Columbia County mandated that all municipalities in the county utilize double-sided, reflective fire numbers to assist emergency personnel in locating properties. All new fire numbers must be erected by January 1, 2010. The town board opted to replace the town's fire numbers over a three-year period in order to ease the burden on taxpayers.

2009 will be our third and final year of installing the new fire numbers. If you notice that your neighbors have received the new style signs, (double-sided, flag style), and you have not, please let the office know, (592-4868), so that one can be ordered for you.

Note: Replacement fire numbers to meet the mandate are paid for by the town. Any subsequent missing or destroyed numbers are paid for by the homeowner.

Thank you.
